### PASSAGE OF THE CONTAGIOUS DISEASE BILL.

### The Senate Tinkers with the Currency and Passes the Contagious Disease Bill.

WASHINGTON, May 23.-SENATE-The Senate took up the bill making subsidiary coins exchangeable for lawful money of the United States, and to make such coin legal tender in sums up to \$20. The committee amendment to substitute \$10 for \$20 was discussed. The bill was supported by Senators Bayard, Booth, Ferry and Kernan, and opposed by Senators Edmunds and Thurman. The morning hour having expired the hill went over without action and the Senate took up the contagious disease

bill. After remarks from several Senators it was reported back to the Senate and the amendments made in the Committee of the Whole were agreed to. It was then read the third time and passed. The Senate then took up the bill relative to the transportation of animals, but without action went into executive session and afterward adjourned until

House.-Mr. Atkins, of Tennessee, from the Committee on Appropriations, reported back the Senate amendments to the legislative appropriation bill, and stated that he was instructed to move concurrence in all of them. It was hardly necessary, he said, to give the reason for that statement; there were some of the amendments in which the committee would not under other circumstances concur, for instance the increase of salaries of Senate officials from 20 to 100 per cent. more than the salaries of some of the corresponding employees of the House. This increase amounted to over \$45,000. He stated in reply to Mr. Conger that the Senate had made no amendments in the political features of the bill. The amendments were concurred in. The silver bill was resumed, and up

### The Virginia Gold Case. RICHMOND, May 12.—In the United

States Circuit Court to-day the evidence in the "Gold Case" of the United States against ex-Governor William Smith was concluded. After some discussion, Judge Hughes gave the statement and his instructions to the jury. The instructions are to the effect that if the jury believe from the evidence that defendant was de facto the governor of the de facto government of Virginia which held authority in that State for some time previous to April, 1865, and that he was acting in the performance of his duties as such governor on the 2d day of April, 1865, when he received the \$5,000 in gold which is the subject of the suit, it was the defendant's duty after that date, as such governor, to continue the performance of his duties over the territory of Virginia for the necessary purposes of civil government, to wit, the preserv tion of life and property, peace and order, and the due administration of the laws of civil society until such territory as he was in at any time fell under the sway of the conquering power, to wit, on the 9th day of May, 1865, provided he gave no aid in doing so to the enemies of the United States after the 9th of April, 1865, The jury were further instructed that for so long a time as the defendant was engaged as above described, he was entitled to a pro rata allowance of salary and is also entitled to such pro )er disbursements as he made durin said service, all to be credited upon the amount sued for. The case was fully argued on both sides, after which it was given to the jury and the court adjourned until to-morrow.

Mr. Pond is understood to have offered Mr. Davis \$400 a night, but he is willing to increase his terms, if Mr. Davis makes that a point in the agreement. There is little hope, however, of the acceptance of the offer, as Mr. Davis is said to be engrossed with an autobiography, or a history of the late rebellion. It is believed that should he accept the offer, his tour of lectures would not only prove interest-ing and instructive to the public but would prove profitable and pleasant to

### SOUTHERN GOLD.

### Yellow "Specks" from the Bowels of North Carolina. uisville Courier-Journal.

Mr. W. P. Conrad returned home last Friday from a visit through 'sev-eral counties in North Carolina, where he had been looking after his mining interest, and with a view of further prospecting. He brought with him many fine specimens of quartz, with considerable gold in them, taken from his mine, which is known as Conrad Hill, and is situated in Davidson county, several miles from Lexington. He also brought some fine specimens of silver quartz taken from "Silver Hill," near "Lynwood," on the Piedmont railroad. The quartz has not been tested by any assayer, nor does Mr. Conrad know the average yield of the mine, but he says, if fully worked, the yield will be very great. The gold mine has only been worked so far to the depth of seventy feet. It has five shafts. The silver quartz was taken from the mine at the depth of 750 feet, where three shafts are in operation. Noticing the rich, red seil in the neighborhood of the mines, Mr. Conrad was surprised, as it was his first visit there, and he had never heard of the productive resources of the State, and gathering up a quantity from the different portions of the country in which he visited, he brought it along. He considers it as rich and valuable land as any s of the country in which he visin the best portions of the country, and that it only requires the attention of the people to be directed to its productiveness to make the State of North Carolina one of the empire States. Mr. Conrad is in the tobacco business here, and lives on the corner of Nineteenth and Market streets, where he keeps his rich possessions. He contemplates returning to North Carolina next September to further the interests of his mine, and have a geological analytical examination made.

# JUMPING OVER NIAGARA.

SAM PATCH'S FEAT AT THE FALLS OUTDONE.

### A Canadian Jumps from the Suspen sion Rridge into the Water 192 Feet Below-

York World. BUFFALO, May 21.—This afternoon Mr. H. P. Peer, of Teeterville, Ont., accomplished the daring but silly feat of jumping from the new Suspension Bridge at Niagara Falls, into the river below, a distance of 192 feet. This entirely eclipses the famous performance of Sam Patch. Peer's dress consisted of merino hose and a full suit of tights, an inflated rubber life preserver, funnel shaped and of his own construction, which covered his hips and extended up to the armpits. Cotton cloth was bandaged tightly over the preserver, about the hips and loins, while a broad sponge protected his mouth and nostrils and his ears were stuffed with the same material, the sponge being slightly moistened with spirits. His thighs were confined with an elastic strap and likewise his teet. Over his shoulders was a leather brace with a ring in the center to which was attached a cable composed of 220 feet of No. 24 brass wire in six strands. This was called a balance and was for the purpose of assisting to retain his position, particularly if the wind should be strong. It was reeled over a cylinder attached to the guard-rail of the bridge and which was operated with a brake-handle like that used upon old time wells, so that the man's speed as he descended could be controlled to a certain extent. It was not fastened and the final end followed

the man into the water.

Mr Peer took his place upon the temporary platform from which he was to drop. The platform consisted simply of two planks fastened about eighteen inches apart. After taking a little stimulant and displaying a little nervousness, for this was his greatest undertaking, he suspended himself between the boards for a moment or two by his hands. The word was given and he was gone like a flash, while the thousand spectators who lined the bank looked on with suspense, fear and trembling. The four seconds that intervened before he struck created a terrible excitement, but as he passed under the water feet foremost with a great splash, and came up in a few seconds more and began to swim, cheer after cheer rent the air. He was picked up by some boatmen and was in no rse condition than if he had jumped into a cistern of water. In fact he assisted to pull the boat to the shore. Mr. Peer was born July 14, 1844, in the county of Halton, township of Nelson, Dominion of Canada. He stands 5 feet 74 inches high, is of slender frame. weighs 143 pounds, and in manner is rather gentlemanlike and unassuming. has a wife and one child. The highest point from which he has ever jumped before was 108 feet. He has been a sailor, and his experience has been obtained in jumping from the mastheads of vessels. It is announced

### that he will try it again July 4th. A FEW NOTES.

A singular story comes from the Maine State prison. James A. Lowell was convicted in 1873, at Lewiston, of the murder of his wife Lizzia of the woods. Lowell was sentenced to be hanged, but the sentence was commuted to imprisonment for life. It is now ascertained that Mrs. Lowell is living at Saginaw, Michigan, as the wife of a man named Spalding, and that she does not deny her identity. Low-ell, when on trial, had claimed that his wife ran away with the employee of a circus. Should it be sustained by legal evidence that the woman in Saginaw is the wife for the alleged killing of whom Lowell was sentenced to be hanged, the case will prove to be one of interest in criminal annals.

The process of tanning a human skin has just been accomplished at a morocco factory at Lyan, Mass. Two skins, about one foot and a half square, of white and black persons who were hanged, were furnished from a Boston dissecting room, and the process of tanning, was remarkably successful, and the skin, as it now appears, resembles a piece of French kid.

### A Ru mored Change in the Cabinet. Richmond Dispatch, 22d.

The stalwarts, as long as Mr. Hayes adhered to "my Southern policy," cared little about the constitution of his cabinet, but they now want stalwarts of their own selection to represent them in it. This fact gives interest to the rumor that was widely circulated today, and generally to the effect that Mr. McCrary will g.ve up the Secretaryship of War and accept the Federal judge ship for the district composed of Iowa and Missouri. Judge J. W. Dillon, who is to make way for him, it is reported, will be appointed to a law professorship in Columbia University, of this city. Mr. McCrary left this eventhis city. Mr. McCrary left this even-ing with Secret ry Carl Schurz for Hampton to attend the Normal School commencement and to ascertain what General Armstrong can do with colored

youths and juvenile Indians.
The news from the White House late to-night is that Mr. Hayes has reluctantly consented to Secretary McCrary's retirement in September, but has now no idea of selecting a Southern man as his successor, as heretofore reported. He will confer with General Sherman, among others, when the time comes to fill the vacancy.

### One of Mme. Blavatsky's Exploits. Pall Mall Gazette. A certain Countess Blavatsky has, it

appears, been doing some marvelous feats in India as a spiritualist medium. The Indian police were disposed at first to look upon her and her companions of a so-called theosophical party as a number of Russian spies; trick which she has contrived to play with a glove does not convince them that the Countess herself is at any rate a far more extraordinary person than any spy, they must be very skeptical people. The story itself, like other wonders in the same scientific field, reads almost like a hoax; but a sober letter from a "Barrister, son of a well-known M. P.," in the Standard, shows that to him, at least, the affair is serious enough. According to the Indian papers, the Countess brought with her om England a pair of gloves. On the 17th of February also a pair of gloves was seen by Col. Olcott in Bombay. About this there is no question, and the Countess informed the Colonel that she had been requested by "an English Barrister, President of the British Theosophical Society, and son of a Liberal member of Parliament whose name is well known throughout India"

—the gentleman who writes to the Standard in short—to send him one of these gloves immediately on her arrival, in order to improve his father's eyesight. The scene changes to London. On the same day the barrister found a telegram at his chambers in the Temple from a lady medium in London saying that her "spirit" had received a message from Mme. Blavatsky in Bombay. Needless to say that this "message" was the glove sent off from Bombay that very day, with "the well known signature on the inside of the kid, and the less known and less decipherable symbols above it." It was received by the gentleman full in the face, in a darkened room, and he now gives evidence that he is quite satisfied that the transmission of the glove was effected by the Countess Blavatsky in Bombay and the less powerful medium in London between them. Earnest seekers after truth in Bombay have begged the Countess Blavatsky to send home their overland trunks by the same route, offering any reasonable price for the

"What a ridiculous affair that was," Mr. Field said, laughing heartily. "It quite true that I made oath that I had no tax to pay on my personal property over and above my debts."

"People's ideas in that respect are very much exaggerated," Mr. Field replied. "Now, I can explain to you in a very few words how this occurred. They sent me notice from the tax-office that they had assessed my personal property at \$100,000, to which I replied that for years my residence and voting-place had been at Irvington, where I

Albemarle Enquirer. Last week a colored woman, the cook of G. W. Beverly, Esq., of Union, became somewhat unmanageable, and when Mr. Beverly attempted to lecture her on the foliy of her ways, she used the first utensil convenient, which happened to be a spider. She broke the spider and came near breaking Mr. Beverly's head. The wounds were painful, and were dressed by Dr. Sears, and Mr. Beverly is now doing well. The woman, was arrested and will be required to give an account of her reck

ess slinging of cooking utensils. Some two weeks since, we informed our readers of the outrageous beating of Mr. Jesse Whitley, of this county by six persons from Gates county. The two leaders in the offense were at once caught and lodged in jail. We are now informed that all the others who had a hand in the affair have been apprehended and will also have to answer the calls of justice.

## THE NEW TEXT BOOKS.

THE SELECTION RY TIE BOARD

### OF EDUCATION. The Second Chapter of the School

Book Question a Matter of Grave

Interest to Agents.

The honorable the Board of Education met according to announcement vesterday afternoon in the Governor's office. Two hours of close confinement and much careful consideration were given to the matter before the meeting, the selection of text books for the schools in this State. There were seven book agents and two lawvers gracefully reclining on the long green benches in full view of the Executive, as if to read through the windows and settle one way or the other the vexed question that has been weighing on them like a pall for the past two months. It was a regular "waiting for the verdict scene." But then we must bear light onthe book men, for really at heart they are good men and mean well, so we will leave them right there where the tableau is all sereneness and composure. What afterward occurred is left for the public to divine.

The following are the books recom-

mended by the Board: The University Publishing Company's' University series: Home spellers reader, grammar, History of the United States, Maury's Geography; Lippincott & Co.'s: Sanford's Arithmetic, Worces-ter's Dictionary, Webster's Dictionary; Ivison, Blakeman & Co's.: Swinton's Child's History; Appleton's copy books. These recommendations are made under the present law and are subject to revision in case the new bill is made law. It is just to the board to say, these selections will give general satis faction to the different schools in the State. All the book men, except the University man, say they don't want the new bill signed. The jig's up with them and now "they will seek green fields and pastures new." It is proba-ble that Mr. Scarboro will carry the question of whether or no it is right to sign the bill, before the Supreme Court early in June. He is a hard man to get around, and "when he makes up his mind his will is law." Thus ends the second chapter on books.

This story is told by a Michigan correspondent of the Chicago Inter Ocean: Educated dogs, educated hogs, educated horses, and even educated mice bave had their intelligence paraded before the public. But we do not remember having read of an intelligent, cultured eat, one that could understand and repeat (of course very brokenly) the English language. The following case is of such unusual occurrence that we have taken pains to verify the rumor. A little daughter of W. H. King, of West Kalamo, Barry county, has a cat or quite large kitten, which she has taught to repeat poetry or prose after the readings of the little miss. Placing the cat facing her, the little girl will repeat a word, when the cat will repeat it after her by a series of mews, one mew for a word of one syllable, two mews for two syllables, etc. It is very interesting to sit and listen to the little miss and the mew-sical of the intelligent feline, who seems to be proud of and re-

The consul is unaware of having slandered anybody, and says he has helped many to situations who are unfriently to the government.

### THE ISSUE OF HATE.

The tender of an issue does not necessitate its acceptance; and alt rough the Republican party, through its leaders, Chandler, Blaine, Conkling and Logan, has tendered to the people of the South the issue of hate, our people for wise and patriotic reasons do not accept it. The Republican party has done enough in the way of persecution, fraud, robbery and slander to the Southern people to justify them in the exercise of the bitterest feelings toward that party; and undoubtedly we do look upon them in their true light, for we can only class them with the basest foes of the Republic and the meanest and most cowardly enemy that a brave people ever encountered. But we do not intend to be betrayed into undignified or unwise conduct. We do not choose to walk into every trap laid by that party to reanimate their declining fortunes. The South intends by its high character, its patriotic course, its efforts to preserve the Constitution, and by the wisdom and moderation of its representative men to show to the North and to the whole world that we are not only a people great in defeat, but capable of defending and protecting the government which our forefathers built from the destructive hordes of the fanatics and traitors who seek to

destroy it.

The speech of Blaine, delivered a few days ago, like all the efforts of that ambitious, corrupt demagogue was filled with taunts and vile slanders against the Southern people, whom he hates because they are pure. He did not raise his finger to save the Union when he said that traitors were trying to destroy it; but being drafted, and on the first call, he contented himself by hiring a man with his ill-gotten money to shield his fat, unpatriotic and trembling carcass from rebel bullets. One of the causes of his hatred of the Southern people is that they caused to be made an exhibition of his cowardice. He hired a substitute to save the Union while he dodged in a bombproof and got rich by the sale of his official position and influence. And so we find that nearly all of this tribe who now thirst for strife-Conkling, Edmunds, old Zach. Chandler, Conger and others who have shown themselves to be such haters of the Southern people-were the men who shirked the war; who grew pale at the sound of the cannon's roar; but who managed to reap political and pecuniary benefits from the war, and now continue the strife that they may hold on to that which they have; and naturally it would seem to be a source of wonder that their heads do not fall in shame when they meet face to face triots as Generals such Democratic Rice, Banning, Ewing, Warner and other brave men who bravely faced the storm in the days of the war, but who when it was over buried the memories of the conflict and sought t) extend the area of peace and good

The Southern people cannot afford to take up the gage of hate tauntingly thousands in the North and the South, has a mission to accomplish. It must save the Union from the disunion element of the Republican party; it must preserve the Constitution from the attacks of the Republican jacobins; and it must preserve civi government the autonomy of the States and the freedom of the people from the onslaught of Republican Goths and Vandals. We are glad that our Senators and Representatives in Congress are exhibiting so much good sense and patience. Let them mature their plans with deliberation and wisdom regardless of the insults of the foe; and at the last, present to the people the issue in such form and manner as shall destroy the enemies of the Government, and restore concord and prosperity to the people.

## TAX.

The letter to Secretary Sherman to the Senate on the subject of the unpaid direct tax due from the seven Southern States, and communicating the plan of Commissioner Raum of collecting this tax, the payment of which was suspended by act of Congress in 1869, reads very much like a campaign document. This tax will hardly be collected at all, but certainly cannot be collected under the act of 1862. which makes the tax a lien upon the lands of individuals. For instance, the amount outstanding against Texas is put at \$174,000. This State has over 20,000,000 acres of farm lands, and the tax would therefore be only 87 hundredths of a cent per acre, so that a plantation of 500 acres would pay \$4.25, and to collect this a special of ficer would have to be sent. The machinery of collection-shotguns thrown out of the account-would cost more than the sum realized. Fesides, any attempt to collect such a tax from the land would needlessly alarm and exasperate the whole Southern people. The attempt to revive the subject in Congress will be almost certain, moreover, to bring to the front the old job for the refunding of the direct tax on cotton, of which \$69,000,000 was collected, although the tax was not known to be unconstitutional at the time when imposed, and has since been pronounced so by the Supreme Court. The direct tax project will, however probably serve some of Mr. Sherman's purposes, for he m. y exasperate the Southern people by crying to collect it, and so help to further convince his constituents of the need for a "solid North" in 1880, and any attempt by Southern Representatives in Congress to appropriate money to refund the cotton tax will in the same way gain votes for Mr. Sherman's party next

REGARDING the recent convention of colored men held at Richmond for the purpose of discussing plans for bettering the condition of the negro race, the Philadelphia Times says: "It may be said with entire assurance that of all ways of ameliorating the condition of the colored men in the South, the convention at Richmond has selected the very worst. As long as the colored men insist upon "recognition" as colored men, so long will the whites refuse them any recognition at all that can be withheld from them, and the threats of going West if they cannot get what they want are not likely to frighten anybody who knows that

DAILY NEWS the emigrants would be the severest sufferers by such a move. If the dame agogues, such as those who are running this convention, or as the "leading Republicans at Washington" who are said to be giving it counsel, will only let the Southern blacks alone, they wil get along well enough, and the best plan they could adopt just now to ameliorate their condition wold be to take about a hundred of these fellows and gently but firmly put them to death.

> It is reported from Washington that a designing politician approached President Hayes, the other day, with an intimation that a second term was among the possibilities of the future The President was not in his usually heerful mood, and he sternly asked he daring intruder if he had ever read "my letter of acceptance." This man was doubtless an office holder, and Mr. Hayes could have crushed him much more completely if he had referred him to "my order about civi service reform."

On Monday next, and presumably or some days thereafter, the metro politan papers will be flooded with orrents of eloquence evoked by the introduction by Senator McDonald of new bill regulating the powers of the President in the use of the army. The utility of introducing such bills at the present time may well be que: ioned, for it is to be assumed that the President will veto any and all bills abridging his powers, and the majority in Congress is not strong enough to override the veto. The people at large understand well enough by this time the efforts that have been made, and foiled, to secure freedom at the polls, and they will in time become disgusted with the continual larping on this subject.

AND now come the currency tinkers once more, The Bland bill may contain some imperfections, but it was good enough to make resumption a fixed fact; and if the provisions of the bill were fairly carried out by those who, being in authority, are properly supposed to be bounden do, there would be little regarding the diffusion of But the bondholders and gold speculators ought to live if the starve, and with Jay Gould's N. Y. Tribune to help them, the attempts at crippling the currency will not cease as long as hope remainsand thanks to a sensible people, who realize the fact that their own pocketbooks are their best friends, such hope grows fainter day by day.

It is of consequence that the bil now before Congress regarding quarantining ports in cases of infectious or contagious diseases should be definitely settled as to whether the matter is a subject for National or State legislation. There is plenty of time for electioneering speeches next year: but this important public health bill that gets kicked around in such rough fashion, is a matter of vital importance, affecting as it does the nation at large. Another season of vellow fever in the South, another outpour ing of treasure from the more fortunate sections of the North, and then the cry for legislation regarding this matter will again go up, only to be disregarded in the craze of candidates

### NOW READY FOR DELIVERY! The Digest of Cited Cases North Carolina Reports. By Hon. A. W. Tourgee.

We are happy to announce to the legal profession that this valuable work is now ready for delivery to subscribers. The labor of preparation and the necessity of securing the utmost possible accuracy in the im-mense number of citations, has necessarily the utmost possible accuracy in the lime mense number of citations, has necessarily delayed the work, but the result cannot but be satisfactory to every practioner. It contains every case in the keports of the State which has been cited by the Court, the cases in which cited, whether with approval or disapproval, with a careful digest of the point of citatic; with a full and accurate index to the subject matter of each. In form, matter, completeness and style of publication, it is undoubtedly the best law book ever published in the State containing 750 large double-column pages, 5,162 cited cases and about 20,000 citations.

It will be mailed to subscribers on receipt of the price \$12 with 25 cents for postage, or sent by Express C. O. D. when there is an office convenient. Persons desiring to have the work should order at once, as the edition is a limited one.

Talbott's Patent Spark Arrester. THE INVENTION OF THE AGE. Talbott's new Patent Spark Arrester is really the only perfect and reliable one, and is superseding all others in use. The great efficiency of this Arrester is attracting universal attention, and is being endorsed by the best mechanical engineers and insurance companies. Its prominent features are . It does not destroy the draft.

It does not interfere with cleaning It will not choke up, and requires no cleaning. It requires no direct dampers to be

opened when raising steam (dampers being objectionable, as they may be left open and allow sparks to escape.)
It requires no water to extinguish sparks, which, by condensation, de-stroys the draft. Besides, when water is used, if neglected, the efficiency is destroyed by evaporation of the water, and the boiler is kept in a filthy condition.
It is simple and durable, and can be

It can be attached to any boiler. No planter should be without one of them. Insurance companies will insure gins and barns where the Talbott Engines and Spark Arresters are used at same rate as charged for water or horse-power. Send for illustrated circulars and price list.

Two young men, residents of Norridgewock, met one morning and one said: "Charles, I dreamed last night that you were a Judge of the Supreme Court of Maine, that I was a minister, and that you called on me to open your court with prayer." Just thirty years af-ter this Rev. Dr. Charles F. Allen, late President of the State College, happened to step into the Supreme Court room in Augusta. Judge Charles Dantord beckoned to him and asked him to men his court with prayer, and behold the dream of thirty years was verified. Rev. Dr. Allen is now pastor of the Methodist Church of Fairfield.

Burning a Man Alive in Bashan. A Druze farmer in Bashan borrowed piastres(\$24.00)of a retainer of Sheikh Shibly. At the end of the year he was mable to pay. The creditor said, Give me your daughter for the debt and I will pay you her dowry, deducting the amount of the debt. The farmer con-sented, and demanded \$120 as the dowry. The creditor offered as payment an order on the Sheikh. The farmer refused to accept it. The creditor was angry, and day after day insulted the farmer, entering his house and even insulting the harem; this so incensed the farmer that he shot the creditor. The sheikhs then assembled and conwhat death?" asked the sheikh. They all cried "Burn him, burn him." "Let him be burned, then," said the sheikh They began to gather wood, when one said "Why gather wood? Let us use the American oil." They then clothed him with a sheepskin cloak, with the wool outside, and poured kerosene oil upon him and set it on fire. He leaped and screamed, and begged for mercy, crying "Woe is me! Do you not fear God!" When he drew near to death Sheikh Shibly said "Stone him ith stones." They then stoned him with stones until a great pile of stones was heaped over him. It is endorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wenderful therapentical agent—Edit is Religious Heraid, Va.

W. C. McMackin,

The tender of an issue does not necessitate its acceptance; and alt rough the Republican party, through its leaders, Chandler, Blaine, Conkling and Logan, has tendered to the people of the South the issue of hate, our people for wise and patriotic reasons do not accept it. The Republican party has done enough in the way of persecution, fraud, robbery and slander to the Southern people to justify them in the exercise of the bitterest feelings toward that party; and undoubtedly we do look upon them in their true light, for we can only class them with the basest foes of the Republic and the meanest and most cowardly enemy that a brave people ever encountered. But we do not intend to be betrayed into undignified or unwise conduct. We do not choose to walk into every trap laid by that party to reanimate their declining fortunes. The South intends by its high character, its patriotic course, its efforts to preserve the Constitution, and by the wisdom and moderation of its representative men to show to the North and to the whole world that we are not only a people great in defeat, but capable of defending and protecting the government which our forefathers built from the destructive hordes of the fanatics and traitors who seek to

destroy it.

The speech of Blaine, delivered a few days ago, like all the efforts of that ambitious, corrupt demagogue was filled with taunts and vile slanders against the Southern people, whom he hates because they are pure. He did not raise his finger to save the Union when he said that traitors were trying to destroy it; but being drafted, and on the first call, he contented himself by hiring a man with his ill-gotten money to shield his fat, unpatriotic and trembling carcass from rebel bullets. One of the causes of his hatred of the Southern people is that they caused to be made an exhibition of his cowardice. He hired a substitute to save the Union while he dodged in a bombproof and got rich by the sale of his official position and influence. And so we find that nearly all of this tribe who now thirst for strife—Conkling, Edmunds, old Zach. Chandler, Conger and others who have shown themselves to be such haters of the Southern people-were the men who shirked the war; who grew pale at the sound of the cannon's roar; but who managed to reap political and pecuniary benefits from the war, and now continue the strife that they may hold on to that which they have; and naturally it would seem to be a source of wonder that their heads do not fall in shame when they meet face to face such Democratic patriots as Generals Rice, Banning, Ewing, Warner and other brave men who bravely faced the storm in the days of the war, but who when it was over buried the memories of the conflict and sought to extend the area of peace and good

The Southern people cannot afford to take up the gage of hate tauntingly thousands in the North and the South, has a mission to accomplish. It must save the Union from the disunion element of the Republican party; it must preserve the Constitution from the attacks of the Republican jacobins; and it must preserve civil government the autonomy of the States and the freedom of the people from the onslaught of Republican Goths and Vandals. We are glad that our Senators and Representatives in Congress are exhibiting so much good sense and patience. Let them mature their plans with deliberation and wisdom regardless of the insults of the foe; and at the last, present to the people the issue in such form and manner as shall destroy the enemies of the Goverment, and restore concord and prosperity to the people.

TAX. The letter to Secretary Sherman to the Senate on the subject of the unpaid direct tax due from the seven Southern States, and communicating the plan of Commissioner Raum of collecting this tax, the payment of which was suspended by act of Congress in 1869, reads very much like a campaign document. This tax will hardly be collected at all, but certainly cannot be collected under the act of 1862, which makes the tax a lien upon the lands of individuals. For instance, the amount outstanding against Texas is put at \$174,000. This State has over 20,000,000 acres of farm lands, and the tax would therefore be only 87 hundredths of a cent per acre, so that a plantation of 500 acres would pay \$4.25, and to collect this a special officer would have to be sent. The machinery of collection-shotguns thrown out of the account-would cost more than the sum realized. Tesides, any attempt to collect such a tax from the land would needlessly alarm and exasperate the whole Southern people. The attempt to revive the subject in Congress will be almost certain, moreover, to bring to the front the old job for the refunding of the direct tax on cotton, of which \$69,000,000 was collected, although the tax was not known to be unconstitutional at the time when imposed, and has since been pronounced so by the Supreme Court. The direct tax project will, however probably serve some of Mr. Sherman's purposes, for he m. y exasperate the Southern people by crying to collect it, and so help to further convince his constituents of the need for a "solid North" in 1880, and any attempt by Southern Representatives in Congress to appropriate money to refund the cotton tax will in the same way gain votes for Mr. Sherman's party next

REGARDING the recent convention of colored men held at Richmond for the purpose of discussing plans for bettering the condition of the negro race, the Philadelphia Times says: "It may be said with entire assurance that of all ways of ameliorating the condition of the colored men in the South, the convention at Richmond has selected the very worst. As long as the colored men insist upon "recognition" as colored men, so long will the whites refuse them any recognition at all that can be withheld from them, and the threats of going West if they cannot get what they want are not likely to frighten anybody who knows that

vear.

DAILY NEWS the emigrants would be the severest sufferers by such a move. If the demagogues, such as those who are running this convention, or as the "leading Republicans at Washington" who are said to be giving it counsel, will only let the Southern blacks alone, they wil get along well enough, and the best plan they could adopt just now to ameliorate their condition wold be to take about a hundred of these fellows and gently but firmly put them to

It is reported from Washington that a designing politician approached President Hayes, the other day, with an intimation that a second term was among the possibilities of the future. The President was not in his usually cheerful mood, and he sternly asked the daring intruder if he had ever read "my letter of acceptance." This man was doubtless an office holder, and Mr. Hayes could have crushed him much more completely if he had referred him to "my order about civil service reform."

On Monday next, and presumably for some days thereafter, the metro politan papers will be flooded with torrents of eloquence evoked by the introduction by Senator McDonald of a new bill regulating the powers of the President in the use of the army The utility of introducing such bills at the present time may well be que: tioned, for it is to be assumed that the President will veto any and all bills abridging his powers, and the majority in Congress is not strong enough to override the veto. The people at large understand well enough by this time the efforts that have been made, and foiled, to secure freedom at the polls, and they will in time become disgusted with the continua harping on this subject.

AND now come the currency tinkers once more. The Bland bill may contain some imperfections, but it was good enough to make resumption a fixed fact; and if the provisions of the bill were fairly carried out by those who, being in authority, are properly supposed to be bounden so to do, there would be little trouble regarding the diffusion of silver. But the bondholders and gold speculators ought to live if the poor do starve, and with Jay Gould's N. Y. Tribune to help them, the attempts at crippling the currency will not cease as long as hope remainsand thanks to a sensible people, who realize the fact that their own pocketbooks are their best friends, such hope grows fainter day by day.

It is of consequence that the bil now before Congress regarding quarantining ports in cases of infectious or contagious diseases should be definitely settled as to whether the matter is a subject for National or State legislation. There is plenty of time for electioneering speeches next year; but this important public health bill, that gets kicked around in such rough fashion, is a matter of vital importance, affecting as it does the nation at large. Another season of yellow fever in the South, another outpouring of treasure from the more fortunate sections of the North, and then the cry for legislation regarding this matter will again go up, only to be disregarded in the craze of candidates

### BREVITIES Odd as it may appear, it is true that there is not to-day in the Union a State or Territory where Sunday laws are so stringent, so rigidly enforced, or so universally obeyed, as in New Mexico. The week, so far as business, pleasure and social intercourse are concerned,

ends Saturday night, and has no com-mencement again until Monday morn-A gold quartz mine has been discovered on the side of the Sierra Madre mountains, in full view of the city of Los Angeles. An assay of the rock vielded \$200 to the ton.

Two young men, residents of Norridgewock, met one morning and one said: "Charles, I dreamed last night that you were a Judge of the Supreme Court of Maine, that I was a minister, and that you called on me to open your court with prayer." Just thirty years after this Rev. Dr. Charles F. Allen, late President of the State College, happened to step into the Supreme Court room in Augusta. Judge Charles Danford backoned to him and asked him to open his court with prayer, and behold, the dream of thirty years was verified. lev. Dr. Allen is now pastor of the Methodist Church of Fairfield.

Burning a Man Alive in Bashan. A Druze farmer in Bashan borrowed o) piastres(\$24.00) of a retainer of Sheikh Shibly. At the end of the year he was mable to pay. The creditor said, Give me your daughter for the debt and I will pay you her dowry, deducting the amount of the debt. The farmer consented, and demanded \$120 as the dowry. The creditor offered as payment an order on the Sheikh. The farmer re-fused to accept it. The creditor was angry, and day after day insulted the farmer, entering his house and even insulting the harem; this so incensed the farmer that he shot the creditor. The sheikhs then assembled and condemned the farmer to death. "By what death?" asked the sheikh. They all cried "Burn him, burn him." "Let him be burned, then," said the sheikh They began to gather wood, when one suid "Why gather wood? Let us use the American oil." They then clothed him with a sheepskin cloak, with the wool outside, and poured kerosene oil upon him and set it on fire. He leaped and screamed, and begged for mercy, crying "Woe is me! Do you not fear God!" When he drew near to death When he drew near to death, the Sheikh Shibly said "Stone him with stones." It is beyond question, a wonderful therapentical agent—Edit is Religious Heraid, Va.

Chaplain Randolph Macon College, Va.

Many cases of Dysp. psia within my knowiege have been cured by it. Cramps, Colles, Headaches and all sorts of pairs from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney, L. L.
Col., Va.
It is highly esteemed here by the regular
Medical Faculty and the people. It is excellent for Indigestion and Flatulent Colle,
sedative, sop rine, tonic, slightly ape ent,
without nausea.

Rev B. F. Woodward, P. E., Na. Cont.
About twelve years I suffered from Dyspepsia. Fairing in with this remedy, I gave it a fair trial. After its use I con'd eat anything with impunity. I am sure I am indebted to this medicine for what of health as d physical comfort I have had for the last sixteen years, I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va.
I have used the mixture in my family for years, and have taken it for a Dyspepsia Colle, which threatened my life, and was cured, eating any diet without hart. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For protration from Dyspepsia or Liver Disease it is invaluable.

J D. Eggleston, M D., Va.

It is a highly valuable remedy, and is more extensively used than any single a ticle in the whole list of medicines, so far zs I observed in my practice, for all the complaints in families from indigestion, I use it and recommend it.

Editor Richmond Christian Advocate.
This remedy is of tr'en virtue. I have seen Dyspepsia cu ed completely by it. It seems io be an antidote to our "Nation I Disease." The ingredients are not kept by the apothecasies, and have been difficult to get.

### A Runaway, Even to Death. Yesterday about moon a span of iron

gray chargers, attached to a wagon dashed up Martin street at headlong speed, the lumbering whoels and clatter of their hoofs on the hard streets attracting a crowd of witnesses. At the corner of Wilmington street the driver of Dr. McKee's blooded steed, as if by intuition, became aware of his danger and quickly glancing back took in the situation like a flash; he put the whip on the fiery horse, who dashed off like mad, whirling around the corner at Fayetteville street and speeding down for some distance. The flying horses rushed recklessly on, regardless of all obstacles, and not seeing the large jagged rocks lying in the open street near Battle's law office, they ran blindly against the stony mass. A terrible shock and the horses and wagon are piled up together, the near horse re gaining his feet, but his mate was fa-tally injured, and after examining his injuries the poor beast was shot to death as a relief from his suffering. The origin of the calamity is reported to be the fault of a careless driver, assisted by the pranks of a small boy on a velocipede near by the place the horses were standing driverless. The team belonged to Messrs, Payne Bros. the leading brick makers of this city, and was a valuable one. It was after-ward developed that Mr. Gray and Mr. Stanhope Pullen were standing on the rocks within five feet of the place the running horses struck, but in five seconds afterward they certainly were not there—they had sloped off up street.
